4.0 If the local authority makes arrangements

If the school can't make suitable arrangements, Staffordshire Local Authority will become responsible for arranging suitable education for these children.

Local authorities must: a. Arrange suitable full-time education (or as much education as the child's health condition allows) for children of compulsory school age who, because of illness, would otherwise not receive suitable education.

Local authorities should:

- a. Provide such education as soon as it is clear that the child will be away from school for 15 days or more, whether consecutive or cumulative. They should liaise with appropriate medical professionals to ensure minimal delay in arranging appropriate provision³ for the child.
- b. Ensure that the education they receive is of good quality, as defined in the DfE's statutory guidance Alternative Provision (2013)⁴, allows them to take appropriate qualifications, prevents them from slipping behind their peers in school and allows them to reintegrate successfully back into school as soon as possible.
- c. Address the needs of individual pupils in arranging provision.

Local authorities should not:

- a. Withhold or reduce the provision, or type of provision, for a child because of how much it will cost (meeting the child's needs and providing a good education must be the determining factors).
- b. Have policies based upon the percentage of time a child is able to attend school rather than whether the child is receiving a suitable education during that attendance.
- c. Have lists of health conditions which dictate whether or not they will arrange education for children or inflexible policies which result in children going without suitable full-time education (or as much education as their health condition allows them to participate in).

5. Monitoring arrangements

This policy will be reviewed annually by the Headteacher. At every review, it will be approved by the full governing board.
